Resolution of the Board of the Irish Beach Water District Documenting
The Approval of the District's FY2008/09 Budgets for Water

WHEREAS, the Irish Beach Water District income requirements are stated in the annual budget and income is derived by water rates and the District-Wide Capital Improvement Assessment. Since the budget varies each year depending on anticipated expenses, capital projects, and reserve goals, the water rates must be adjusted to meet the needs of the budget.

1. NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Irish Beach Water District approves the FY 2008/2009 Water District Budget as attachments to this resolution titled "Cash Flow Water Budget For the Irish Beach Water District – October 1, 2008 through September 30, 2009 – Effective October 1.

2. NOW, THEREFORE, BE IT RESOLVED that the Board of Directors of the Irish Beach Water District has determined that the water rates, as stated below and on the attached "Cash Flow Water Budget For the Irish Beach Water District – October 1, 2008 through September 30, 2009 are responsive to and in support of the needs of the Water District and are approved for the FY 2008/2009. These rates will be effective beginning October 1, 2008. (Note: no change in rates from 2006-07; rates remain same.)

Notes To The Irish Beach Water District Cash Flow Budget

- 1) The purpose of the Water District Budget is to show 100% of the cash and cash equivalent flow in the District. As Such, 100% of all IBWD revenues and expenses are shown on the Water District Budget; operating, capital improvement, and assessments.
- 2) Lease income from Fire House and other support provided to IBVFD. Created lease amount of \$1362/year at \$113.50/month based on the following
 - Firehouse depreciation \$762/yr.
 - Office Expenses \$100/yr.
 - Office labor \$600/yr.Assumed only a couple of hours of time per month by Office Manager and minor paper, copying and other office expenses. All other Fire Department Expenses to be reimbursed to the Water District by Fire on a case by case basis.
- 3) Operating Reserve and <40yr Asset Replacement Reserve are located in one bank account. Withdrawals from the account must be authorized by the IBWD Board of Directors by revision of the IBWD Budget. Interest is prorated between reserve account categories.
- 4) All funds collected from "District-wide Capital Improvement Assessment" are located in one bank account. Withdrawals from the account must be included in the Assessment Engineering Report and authorized by the IBWD Board of Directors by revision of the IBWD Budget. Interest is prorated between reserve account categories.
- 5) All expenses incurred by the Water District in Support of the IBVFD, other than those included in the lease agreement, are to be expensed by the Water District. Such expenses are to be invoiced at cost to the IBVFD so the Water District can be reimbursed for its fire department related expenses. When such invoices are paid by the Fire Department they are identified as income from reimbursements. No IBVFD expenses can be paid by the Water District without reimbursement by the IBVFD.
- 6) All projects, including capital replacement, capital improvement, and Mallo Pass expenditures are to be estimated with detailed budgets broken down by project within the appropriate Operating or Capital Improvement categories as indicated with additional sub categories established as required to adequately define the work to be performed. Such estimates should include all materials, supplies, equipment, associated labor and contracted services to support such projects. Contractors and other contracts such as engineering should be included here, not under administrative contracts.
- 7) Legal is funded as part of the Contracted Services Component with General Council as a regular expense. When legal assistance is required because of litigation or in support of a project, each specific project or litigation it is to be estimated and funded separately as additional sub categories.
- 8) Bank charges, messenger services, etc.
- 9) Legal Fees and Expenses include Court Costs, filing fees and other such expenses including any judgement expenses. Attorney costs are included under contractual services.

- 10) Depreciation is not used in the budget for any purpose because it does not directly correlate with cash or cash equivalent flow. Funding of reserves is addressed separately and is directed toward establishing reserves for replacement of aging infrastructure and is not driven by depreciation.
- 11) When additional consultant support is required, each specific project is to be estimated and funded separately as an Other Consultant sub category.
- 12) The funding source for each expense item is identified. While property assessment funded items are provided for as part of the District Wide Capital Improvement Assessment, all other expenses must be funded by charges to the connected users of the water system. The fixed and variable expenses are used to calculate the operating water rates.
 - Operating expenses that are primarily impacted by water usage are designated as variable and are funded by water Usage Charges (**UC**)
 - Operating expenses that are not significantly impacted by water usage are considered Fixed and are funded by the Availability Charges (**AC**).
 - Operating expenses that have little relationship to the supply of water or maintenance of the water system and are above and beyond normal operations are funded by Water Service Assessments(**SAF**). For example legal costs due to litigation are to be offset by a Water Service Assessment.
 - The Operating Reserve (**ORF**) is intended to fund such things as the IBWD Board of Directors deems appropriate and expenses not otherwise provided for by assessments (such as minor improvements). The Operating Reserve is funded by Availability Charges.
 - The < 40 yr. Asset Capital Replacement Reserve (**ACRF**) is intended to fund replacement of capital assets with an expected life of less than 40 years. The Asset Capital Replacement Reserve is funded by Availability Charges.
 - Items identified in the District Wide Capital Improvement Assessment (property assessment) are funded from the reserves established to hold those funds (**PARF**). Such reserves are funded from the property assessment (**PAF**).
