Dear Customer,

Your septic inspection requirement is not up to date. Please submit a current septic inspection/pumping report to fulfill the requirement that your septic system must be inspected every five years by a registered sanitarian or septic tank operator. You may submit by mail to P O Box 67 or by email jmurray@mcn.org.

The date of last inspection/pumping we have on record_____.

If you believe our records are not accurate, please submit a more recent report of inspection/pumping. If you cannot find this recent report, let us know who performed the inspection/pumping and approximate date._____.

If you purchased your home within the last five years, an inspection was probably made at that time and a copy would be in your closing paperwork.

It is a requirement that your septic system be inspected every five years to protect the quality of our drinking water.
