Post Office Box 67
Manchester, California 95459

Re: Septic Inspection / Pumping at _____

Dear Customer,

Resolution 93-5 requires that all septic tanks in the Irish Beach Water District be inspected and pumped, if necessary, every five years by a registered sanitarian or a septic tank operator.

According to my records, the last time your septic tank was inspected/pumped was in (MM)____(Year)____. If your records show you have had your tank inspected / pumped within the last five years, please simply provide the District with written documentation and our records will be updated accordingly.

The Irish Beach Water District is requesting that you arrange to have your septic tank inspected / pumped by (3 months)_____. Please arrange to have your tank inspected and have verification sent to the District Office to avoid additional fees.

Thank you for your cooperation.

Sincerely,

Office Manager

For your convenience you are being provided names and contact numbers of several septic companies:

- 1) Carl Rittiman (707) 937-0804
- 2) Rick Riccia's A-1 Septic Service: 707 937-0496
